

# Intellectual Disability Awareness Month 2024

March is Intellectual Disability Awareness Month.

This means we want everyone to learn more about intellectual disabilities.

We want to support and include everyone.

Let us talk about the things that can be hard for people with intellectual disabilities.

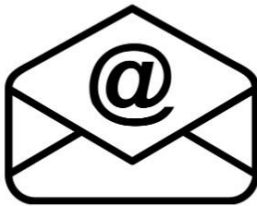

Let us talk about how we can all help each other.

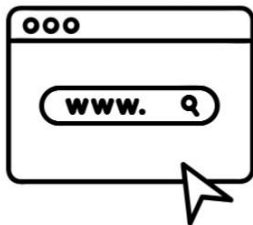

People with intellectual disability should not feel scared to show their talents.

If you want to talk to someone from The South African Federation of South Africa:
